The replacement of a retiree by an employee of a lower grade usually creates a wave of vacancies in the grade structure below. This should be kept in mind in plotting vacancies at the GS-17, GS-16 and GS-15 levels, which are a composite of vacancies within these grades and vacancies above them.

C/ It is suggested that two or more candidates should ordinarily be identified from among employees GS-13 and phove for each identified job vacancy. (Twice as many candidates as the total number of estimated vacancies per organizational or functional group should ordinarily be identified when this method of estimating is used in lieu of identifying vacancies by positic; title.)

Prospects may be designated from outside the career service. The same employee may appear as a candidate for more than one vacancy expected to occur during FY 1973-FY 1976. (The testing, coaching, observing, and developing of such employees should take into account the requirements of the position or the organizational or functional grouping for which they have been designated as prospective replacements.)

If a prospective candidate is scheduled to retire within two years from the date he would incumber the expected vacancy or is being considered to fill a vacancy for a period of two or less years, attach to this table an explanation why he is a candidate (e.g., level of qualifications or future utilization and development). Likewise, attach a similar explanation in the event an employee outside the career service is designated as a prospective replacement.

D/ The Head of the Career Service is asked to evaluate the advancement potential of each candidate appearing in this Roster and to insert the appropriate number in this column: 1 - one grade; 2 - two grades; or 3 - over two grades.
